

Hug Your Teddy

CHORUS

You've gotta hug your teddy (hug your teddy)

Squeeze 'em tight (squeeze 'em tight)

You've gotta hug your teddy (hug your teddy)

With all of your might (all of your might)

'Cos they'll walk with you and talk with you and whisper in your ear

They'll say "I love you, do you love me too?"

And you'll say "of course I do".

CHORUS

'Cos they can fly up high and swing down low, do anything you like

They can dance with you and help you sleep too

and kiss you goodnight.

BRIDGE

You can dress them up in anything you like

You can find a piece of string and tie them on to your bike

They never complain or make a fuss or start a fight AND

They're the best friends you can have

When your other friends aren't around

CHORUS

2 or 3 you've gotta hug your Teddy's fading out.
